UNIVERSITY OF VIRGINIA, CHAR-LOTTESVILLE, Va., March 21.-The Senators encountered today the first bad weather of the preliminary practice sea-

A heavy rain fell last night, and today it is bleak and chilly. Though there was hardly a sprinkle to be felt this morning, it was thought best to have indoor

practice rather than a workout on the damp ground.

Ten o'clock found the players on the main floor of the university gymnasium. Like a bunch of schoolboys, the ball tossers went around trying every piece of apparatus before they settled down to work.

Pitchers Warm Up.

All the pitchers warmed up, Jacob-sen and Wolfe being the first pair to Hughes and Patten came next, and then Townsend.

At 11 work was suspended, and the men were given opportunity to show what stunts they could perform on gymnasium apparatus. Some of the players showed themselves adepts, made some creditable perform ances on the flying rings, side horse

Hughes created considerable amusement by putting on a fencing mask and acting in the capacity of backstop.

Manager Stahl enjoyed the exercise on the quarter circle board. Joe Cassidy's specialty was on the flying rings, while Nill performed on the horizontal bars

Mullin devoted some little time to the grip and wrist machines.

The morning work ended with twenty laps around the running track.

"By that time I'm disgusted and comover to New York to forget Congress. Finally, I see something in the newspapers to remind me of it, and I go back

in time to vote.

"I find they're getting onto the game on the Bowery, too. Few days ago a shine guy came Into the Occidental Hotel and asked for Representative Sullivan. A seedy-looking affair at the bar speaks up and says:

"Representative Sullivan? Why, I just sent him up to Lyons' restaurant to get a plate of beef and fer me.' Oh, yes, they're sizing up Representatives on the Bowery by now.'

ICE FLOES APPEAR MANY MILES AT SEA

ST. JOHNS, N. F., March 21.-Incoming shipping and advices from the northern coasts where the sealing fleets are now operating, report the worst ice blockade ever known. Ice floes extend hundreds of miles seaward. Along the northern coast ice is packed in heavy, flinty fields.

These also extend out from the Gulf of St. Lawrence past St. Pierre Miquelon, thence south beyond Sable Island and eastward beyond Cape Race, closing Placentia Bay. Steamers have been unable to enter the bay for ten days.

An interesting development during the day was the discovery that two or three merchants, with misdirected enterprise merchants, with misdirected enterprise, had taken advantage of the great interest manifested in the Maltese Cross to send out circulars with the Maltese Cross oa the envelope.

These fell into the hands of several persons, who were very much disappointed when informed that the order which they held was a fake pure and simple.

will gladly give you a full dollar's worth of my remedy to test.

Nothing to deposit. Nothing to promise. The dollar bottle is free. Your Druggist, on my order, will hand you a full dollar's worth and send me the bill.

Why do work and worry and excess and strain and over-indulgence break down constitutions and make men and women worn out and run down and restless and sleepless and discouraged and morose? Because they weaken the tiny, tender nerves on which life itself depends.

Not the nerves you ordinarly think about—

Not the nerves you ordinarry think about— not the nerves that govern your movements and your thoughts. But the automatic nerves that, unguided and unknown, night and day, keep your heart in motion—control the digestive appar-atus—regulate your liver—operate your kid-

atus—regulate your liver—operate your kindneys.

These are the nerves that worry wears out and work breaks down.

It does no good to treat the ailing organ—the irregular heart—the disordered liver—the rebellious stomach—the deranged kidneys. They are not to blame. But go back to the nerves that control them. There you will find the seat of the trouble.

It does no good to take stimulants and narcotics, for theirs, at best, is but a temporary effect which merely postpones the final day of reckoning.

There is nothing new about this—nothing any physician would dispute. But it remained for Dr. Shoop to apply this knowledge—to put it to practical use. Dr. Shoop's Restorative is the result of a quarter cen-

mained for Dr. Shoop to apply this knowledge—to put it to practical use. Dr. Shoop's Restorative is the result of a quarter century of endeavor along this very line. It does not dose the organ to deaden the pain—but it does go at once to the merve—the inside nerve—the power nerve—and builds it up, and strengthens it and makes it well. That is the end of all vital troubles. That is the end of sleepless nights and restless days. That is the end of "nervousness," the end of brain fag and fatigue.

If you are worn out, run down and have never tried my remedy, merely write and ask. I will send you an order on your druggist which he will accept as gladly as he would accept a dollar. He will hand you from his shelves a standard sized bottle of my prescription, and he will send the bill to me. This offer is made only to strangers to my remedy. Those who have once used the Restorative do not need this evidence. There are no conditions—no requirements. It is open and frank and fair. It is the supreme test of my limitless belief. All that I ask you to do is to write—write today.
